

SUMMIT BACKUP

TCT's Summit Backup material is a white, melamine coated HDF density fiber (HDF) backer material with excellent thickness consistency and flatness characteristics. Summit Backup provides a cost-effective solution to your PCB drilling needs.

Product Specifications:

Thickness	.095" (2.41mm)
Tolerance	+/- .005" (0.13mm)
<hr/>	
Master Sheet Size	36"x 48", 42"x 48"
Panel Sizes	Available in cut to order sizes
Tolerance	+/- .031" (0.8mm)
Tooling	CNC Tooling Available / Round Holes
<hr/>	

Stocking Locations

Placentia, CA
San Jose, CA
Plymouth, MN
